**RESPONSE TO APRIL 1, 2009 ADVISORY ACTION
IN U.S. PATENT APPLICATION NO. 10/805,044**

Sir:

This responds to the April 1, 2009 Advisory Action in the above-identified application.

It appears that in drafting the Advisory Action the examiner did not have the benefit of applicants' response mailed March 26, 2009. By the March 26, 2009 response, applicants filed a Request for Continued Examination (RCE) in this matter. In the submission accompanying the RCE, applicants requested entry of the response previously mailed January 28, 2009, a revised version of which was filed on February 25, 2009, at the examiner's request.

Accordingly, no substantive response to the Advisory Action is presently due, as an RCE has previously been filed in response to the October 28, 2008 Final Office Action. Applicants request acknowledgement of the status of the application as post-RCE and awaiting substantive examination by the examiner. As acknowledged by the examiner in the Advisory Action mailed April 1, 2009, the responses mailed January 28, 2009 and February 25, 2009 require substantive review prior to entry. Accordingly, the RCE was filed requesting entry of the responses and substantive review of the same.

The time for responding to the October 28, 2008 Final Office Action was set at three months. A Response to that Final Office Action was mailed by applicants on January 28, 2009. An Advisory Action and a Notice of Non-Compliant Amendment were mailed by the USPTO on February 23, 2009. A response to the Notice of Non-Compliant Amendment was timely filed by applicants on February 25, 2009. An RCE was timely filed by applicants on March 26, 2009, accompanied by a request for two month extension of time, as calculated from the October 28, 2008 mailing date of the Final Office Action, and the applicable fee. A review of PAIR shows the RCE as received by the USPTO on March 26, 2009. Appendix A hereto is a copy of the electronic filing receipt generated upon EFS filing of the RCE on March 26, 2009. A second Advisory Action was mailed by the USPTO on April 1, 2009.

Entry of the RCE submitted on March 26, 2009 is again respectfully requested and no substantive response to the Advisory Action mailed April 1, 2009 is believed due to maintain pendency of U.S. Patent Application No. 10/805,044.

No fees are believed to be due for the filing of this paper, as all responses were timely filed and applicable fees previously paid. However, should any fees be required or an overpayment of fees made, please debit or credit our Deposit Account No. 08-3284, as necessary.

Respectfully submitted,

Date: April 8, 2009
